go deploy

Virtual Lab Access Information

Event	Access Period	Save Period	Max Launches
M20761C Querying Data with Transact-SQL	180	4	Unlimited

Important Information

Instructors should familiarize themselves with the go deploy platform prior to starting the class. We have a dedicated Help Center available for FAQ's:
https://lab.support.godeploy.com/

The key below should not be redeemed by Instructors.Instructors should only request access using the this form: MCT Request Form

Our support channel is available 24/7 and you can simply submit a request here: go deploy Support
Please note that emailing the support channel directly may cause delayed response time as tickets raised using the support form are prioritized.

The redemption of keys cannot be undone therefore instructors who redeem a key will require the Training Services Partner to purchase an additional key.

Unused keys can be kept indefinitely and may be used for future course deliveries.

Keys do not expire and are only activated once redeemed.
